Multiple local agencies along with the Drug Enforcement Administration would like to invite you to participate in the 17th National Prescription Drug Take-Back Day on Saturday April 27, 2019 from 10:00 am to 2:00 pm.

On this date, the DEA along with partnering agencies will again be collecting potentially dangerous, expired, unused, or unwanted prescription drugs at sites nationwide. Previous national efforts were very successful, thanks to local agency partnership with the DEA.

****Please take note: Needles, Sharps, and Liquids are not accepted****
